

BRENDA AKWEEONGO

Data Analyst

☎ +233-24-367-0688 ✉ akweongob@gmail.com 📍 Accra, Ghana 🌐 <https://brendaakweongo.github.io/portfolio>

PROFILE INFO

Analytical and tech-driven professional transitioning from Project Management and Software Support into Data Analytics. Over 5 years' experience coordinating cross-functional projects, analyzing performance data, and supporting business software systems. Skilled in identifying trends, optimizing workflows, and delivering actionable insights. Extremely passionate about leveraging data to drive smarter business decisions.

PROJECTS

■ Sales Performance Dashboard - Power BI

<https://github.com/brendaakweongo/Sales-Dashboard>

- Developed an interactive dashboard to analyze sales trends.
- Automated data cleaning using Power Query which improved reporting efficiency by 40%.
- Visualized KPIs including total revenue and profit margin.

■ Customer Support Incidents Insights - Python (Pandas and Matplotlib) and Power BI

<https://github.com/brendaakweongo/Incident-Management>

- Cleaned and analyzed support ticket data to identify top recurring issues.
- Visualized response time trends and suggested process improvements.
- Helped management prioritize areas for system enhancement.

■ HR Data Insights - Power BI

<https://github.com/brendaakweongo/HR-Dashboard>

- Cleaned and analyzed HR dataset to identify employee turnover trends.
- Built dashboards of employees due for promotion for management presentation.

■ Customer Analysis- Python (Pandas and Matplotlib), MS SQL and Power BI

<https://github.com/brendaakweongo/Customers>

- Used Python (Pandas, Matplotlib) to explore dataset of a business and identify customer patterns.
- Created SQL queries to extract and segment customer behavior data.
- Recommended strategies that could increase customer base by 15%.

EXPERIENCE

- 2024 - PRESENT

Spagad Technologies Limited | Accra, Ghana

Project Manager

- Managed project timelines, resources, and reports for software implementation projects.
 - Developed Excel-based dashboards to track project KPIs (budget, milestones, resource allocation).
 - Supported data migration and testing activities during system deployments.
 - Presented project status reports using data visualization tools for management meetings.
- 2020 - 2024

Spagad Technologies Limited | Accra, Ghana

Software Support Analyst

- Provided first and second level support for enterprise software users.
 - Used SQL queries to troubleshoot data-related issues in client systems.
 - Created monthly reports on incident trends and resolution times.
 - Collaborated with the development team to propose data-backed product improvements.
